WELCOME TO THE SCOTTISH LEARNING FESTIVAL 2018

The Scottish Learning Festival, is taking place on 19 and 20 September in the SEC, Glasgow.

Over the years we've welcomed thousands of educational practitioners from Scotland and beyond, and we look forward to welcoming thousands more to this year's key educational event.

The unique SLF experience will provide opportunities to access high-quality and highly engaging professional learning as well as opportunities to explore, discuss and exchange knowledge and ideas with thousands of professional colleagues and experts.

SLF 2018 has been planned around the key theme of ***collaborating for improvement*** with a particular focus on:

- effective collaborations that ensure young people are having a greater say in decisions that affect their lives
- strong STEM education and training that inspires learners and connects with the labour market.

With a combination of top quality keynote speakers, practical seminars and the ever popular exhibition, SLF is the ideal place to share thinking and discuss education. We're excited to host yet another stimulating and thought-provoking experience for all who attend.

HOW TO BOOK YOUR PLACE

SLF is completely FREE for everyone to attend and contributes towards your career-long professional learning.

To book your place, browse the conference programme, note the seminars you want to attend and visit the Education Scotland website education.gov.scot, for booking information. Remember to book early to guarantee a place at the sessions of your choice.

Attendance at the opening keynote on the Wednesday must be pre-booked as places are limited and are allocated on a first-come, first-served basis.

Extra availability on the day

While the number of seminars you can book in advance is limited, you will be able to attend additional seminars on the day. Simply go along to the relevant seminar room 5 minutes before the scheduled start time and if places are available you will be able to attend the seminar.

SCOTTISH LEARNING FESTIVAL 2018: COLLABORATING FOR IMPROVEMENT

There's lots on offer at SLF 2018, whether you work in early learning and childcare, a school, community learning, health, social work, the voluntary sector or as a training provider, there is something of interest for everyone contributing to the learning and development of Scotland's children and young people.

SLF 2018 will give you the opportunity to explore a wide range of practical approaches, resources and research through:

- a programme of inspirational keynotes delivered by Deputy First Minister and Cabinet Secretary for Education and Skills, **John Swinney MSP**, **Dr Jo Boaler**, Professor of Mathematics Education, Stanford University and **Louise Macdonald OBE**, Chief Executive, Young Scot;
- STEM Live an interactive experience with STEM demonstrations and inspirational keynote speeches from **Prof Louise Archer**, Karl Mannheim Professor of Sociology of Education, University College London and **Dr Jamie Gallagher**, award-winning scientist and science communicator;
- a range of **professional learning seminars** where you can engage in activities and learn from practitioners and young people;
- the largest education exhibition in Scotland with access to **more than 175 exhibitors**; and
- opportunities for **professional networking** with peers and colleagues from across Scotland.

SUPPORTING PROFESSIONAL LEARNING

SLF is the largest professional learning event for Scottish education. Attending SLF supports your career-long professional learning, by helping to keep your professional practice fresh, up-to-date and relevant.

PUTTING THE LEARNING INTO ACTION

The unique SLF experience also includes a range of activities taking place in the exhibition, all giving visitors opportunities to discover innovative practice, new resources and proven strategies to enhance teaching and learning.

Located in Hall 4, the exhibition will bring learning to life and showcase over 175 educational suppliers covering all levels of education.

Visitors will have the opportunity to meet well-established companies supplying some of the most innovative classroom resources as well as a whole host of companies new to SLF.

EXHIBITION FEATURES

The exhibition is home to a fantastic range of features bringing learning to life through presentations and demonstrations:

- **Education Scotland stand** – where staff from Education Scotland and SCEL will be on hand to have a chat about the work of the organisation.
- **Exhibitor Seminars** – a dedicated theatre exclusively for exhibitors to talk about great ideas.
- **Regional Improvement Collaborative Village** – come and meet the authorities to find out more about their work.

The exhibition and all these features are completely FREE to attend. Browse the programme to see what's happening then come along and discover all the innovations, ideas, talks and presentations.

Visit www.slfexhibition.com for more information about what's on offer at the SLF exhibition.

KEYNOTE PROGRAMME – 19 SEPTEMBER – LOMOND AUDITORIUM

We are delighted to welcome Deputy First Minister and a superb line-up of keynote speakers to SLF 2018.

DEPUTY FIRST MINISTER'S OPENING KEYNOTE ADDRESS

John Swinney MSP, Deputy First Minister and Cabinet Secretary for Education and Skills

Hear the Deputy First Minister and Cabinet Secretary for Education and Skills, John Swinney MSP, deliver the opening keynote address at SLF 2018.

WEDNESDAY – 10.30-12.00

SEMINAR CODE K1

TEACHING MINDSET MATHEMATICS THROUGH OPEN, CREATIVE MATHEMATICS AND BRAIN SCIENCE MESSAGES

Dr Jo Boaler, Professor of Mathematics Education, Stanford University

We are in the midst of a revolution, in the science of the brain and learning. New knowledge from brain science is showing a clear path for teaching and learning, that is both exciting and inspiring for teachers. In recent years scientific studies have also demonstrated that student and teacher 'mindsets' have a profound impact on learning.

So what does teaching look like when it takes account of brain science and mindset research? It is open, creative, and visual and it encourages brain connections through multi-modal representations of knowledge. In this session we will think together about ways to teach numeracy through a mindset approach and look at videos of students who have learned in these ways. We will consider possibilities for your own teaching, with ideas for open and creative teaching of numeracy, to be used across the curriculum.

Jo Boaler's SLF 2018 keynote is brought to you in partnership with Winning Scotland Foundation – a charity that is working with teachers, school management and leadership teams across the country to help young people fulfil their potential by developing a growth mindset.

www.winningscotlandfoundation.org

WEDNESDAY – 12.30-13.15

SEMINAR CODE K2

NOTHING ABOUT US WITHOUT US: THE YEAR OF YOUNG PEOPLE AS A CATALYST FOR PARTICIPATION

Louise Macdonald OBE, Chief Executive, Young Scot

The Year of Young People 2018 is providing everyone in Scotland with a brilliant platform to really engage with young people. #YOYP2018 is built on a foundation of co-design which has put young people at the heart of the year every step of the way.

This session will explore how we can build on the year in Scottish education and learning in the years ahead, using co-design to put power, influence and decision-making directly into the hands of young people.

WEDNESDAY – 14.00-14.45

SEMINAR CODE K3

STEM LIVE – 20 SEPTEMBER – LOMOND AUDITORIUM

NEW FOR 2018

We're introducing a fantastic new, interactive experience with STEM demonstrations and inspirational keynote speeches.

Making Scotland a STEM Nation

The Scottish Government is committed to ensuring Scotland has a highly educated and skilled population that has the STEM skills, knowledge and capability required to adapt and thrive in the fast-paced changing world and economy around us. This keynote will set out the Government's vision and the ambitious plans in the STEM Education and Training Strategy published last year. It will highlight significant achievements and progress already made and the challenges still to be met to improve STEM outcomes for learners, families and communities across the country in order to realise the ambition of Scotland being a leading STEM nation.

THURSDAY – 9.30-10.15

SEMINAR CODE K5

STEM Expo 2018

Kick-start STEM in your setting by taking part in our wide range of STEM demonstration sessions. In a first for the Scottish Learning Festival, these experiential sessions are packed full of practical ideas that practitioners can replicate in their own settings to motivate and engage learners across STEM subjects and digital learning within early learning, primary, secondary and community settings.

THURSDAY – 10.45-11.30

SEMINAR CODE LA6

Improving young people's engagement with STEM: A science capital approach

Prof Louise Archer, Karl Mannheim Professor of Sociology of Education, University College London. Considerable time and resource has been devoted to trying to improve (increase and widen) participation in STEM - but there has been little change in the profile of who continues post-16, particularly within the physical sciences and engineering. This talk reviews findings from large scale, mixed methods research conducted with over 40,000 young people, to understand the key factors shaping young people's science aspirations and engagement. It is suggested that many current initiatives are mis-focused and that a more productive way forward could lie with a 'science capital' approach, with findings from a sister project (in which a science capital teaching approach was co-developed with teachers and trialled in 25 classrooms) showing significant improvements to students science engagement, understanding, post-16 aspirations and levels of science capital.

THURSDAY – 12.00-12.45

SEMINAR CODE K7

STEM Expo 2018

Kick-start STEM in your setting by taking part in our wide range of STEM demonstration sessions. In a first for the Scottish Learning Festival, these experiential sessions are packed full of practical ideas that practitioners can replicate in their own settings to motivate and engage learners across STEM subjects and digital learning within early learning, primary, secondary and community settings.

THURSDAY – 13.15-14.00

SEMINAR CODE LA8

The Art of Science Communication

Dr Jamie Gallagher, scientist, science communicator and salsa dance teacher.

Dr Jamie Gallagher (@jamiebgall) is an award-winning scientist and science communicator. He spends his days sharing his love of science, taking the most complex of topics and creating compelling narratives and interactive stage shows. His work has taken him around the world from skyscrapers of Hong Kong to tents in the African bush.

Join Jamie as he explores how STEM subjects can be memorable, exciting and accessible for all. Discover how fusing science with storytelling, art and dance gives the chance for even the most science-phobic pupils (and teachers!) to connect with the subject in new and interesting ways.

THURSDAY – 14.30-15.15

SEMINAR CODE K9

Wednesday 19 September – 09.30-10.15

Parental engagement and STEM capital

Paul Tyler, Mearns Primary School, East Renfrewshire

This is our journey to engage parents in STEM activities and establish a new teaching approach that helps pupils contextualise science and relate it to their own lives. We will explain STEM capital as a concept and give practical examples of how it can be successful in a primary setting.

ALSH 1
SEMINAR CODE A1A

The practical application of evidence based practice in supporting reading comprehension skills within the classroom

Taryn Moir, North Ayrshire Council

In partnership with Strathclyde University and as part of a DEdPsy an investigation into effective reading comprehension approaches took place. This project added to existing literature by providing a controlled study of an innovative approach to reading comprehension and found SHORS to be a high impact, short term and feasible intervention.

ALSH 2
SEMINAR CODE A2A

The power of pupil voice in managing attitudes towards inclusion

Joy Christie and Alastair Harbison, Inverbrothock Primary School, Angus

Here at Inverbrothock we successfully embrace differences with our ethos of inclusion and understanding. We have experienced great success in our 'Inver Includes' lunchtime group which gives identified pupils the chance to become peer educators who work with others to develop an understanding and raise awareness of additional needs.

BOISDALE 1
SEMINAR CODE B1A

My learning adventures - looking inwards, outwards and forwards

Lynsey Burke and Anne Douglas, Airth Primary School, Falkirk

The aims of this seminar are two-fold:

- to provide an overview of the in-depth self-evaluation and improvement processes we have used to devise App-based bespoke nursery profiles (HGIOELC, QI 1.1)
- to demonstrate how these 'Learning Adventure' books have become part of our pedagogical approach in the early years, ensuring pupil voice is firmly embedded. Pupils are the authors, illustrators and audience of their 'Learning Adventures'. (HGIOELC, QIs 2.2, 2.3, 2.5).

BOISDALE 2
SEMINAR CODE B2A

A partnership approach to delivering DYW

Christeen MacLeod and Mairi MacLeod, Laxdale Primary School

A seminar sharing the approach of Laxdale School in delivering a school-wide programme of skills-based learning that develops learners' understanding of the world of work, equips them with new and relevant employability skills and creates aspirations for future learning and employment.

CARRON 1
SEMINAR CODE C1A

Leading learning with pupils, parents and staff to breakdown the digital divide #digitalinclusion

Hazel Lynch, Aberdeen City Council and Louise Jones, Google

Presented at BETT in London 2018, delivered at the Assessment Tomorrow Conference in Edinburgh 2018 and praised by CALL Scotland – Discover how Aberdeen City Council have embedded inclusive digital learning across the authority - Recognising children and young people as leaders of learning and joining with parents to break down the digital divide.

CARRON 2
SEMINAR CODE C2A

Empowering young people to make a difference! Ten years of YPI Scotland

Jonathan Christie, The Wood Foundation

This seminar will explore the significant role young people play in communities across Scotland. Co-designed with a cross section of schools/young people, this session will share perspectives from those who have participated in YPI Scotland, collaborated closely with third sector partners, and impacted upon the issues that most significantly affect their lives.

DOCHART 1
SEMINAR CODE D1A

Update on inspection and review

Louise Turnbull, Education Scotland

Delegates will find out more about how approaches to inspection have supported schools on their improvement journey.

DOCHART 2
SEMINAR CODE D2A

Wednesday 19 September – 09.30-10.15

Children as researchers

Sheelagh Paterson, Kelvinside Academy, Glasgow

In this seminar we will report on a six-week collaborative project between the University of Glasgow and Kelvinside Academy in Glasgow, in which two primary 6 classes participated in a 'Children as Researchers' initiative, from the perspective of the school, teachers, university researchers and most importantly the young people themselves.

KATRINE
SEMINAR CODE K1A

Early learning, early gains in reducing the attainment gap in Gaelic Medium Education (GME)

Joan Esson, Education Scotland

The seminar supports strategic planning in GME for which John Swinney MSP, Deputy First Minister and Cabinet Secretary for Education will make opening remarks. HM Inspectors will share the successes and challenges of free GME Early Learning and Childcare (ELC) hours, and how solution-focused approaches may be implemented. These include Sabhal Mòr Ostaig detailing how foundation apprenticeships for ELC in the senior phase may support workforce planning.

LEVEN
SEMINAR CODE L1A

Youngwummin: young heritage researchers exploring the impact of WW1 on young women in Scotland

Amy Calder, YouthLink Scotland and Amy O'Donnell, East Dunbartonshire Council

At this interactive workshop you will learn about how YouthLink Scotland and the National Library of Scotland, with funding from the Heritage Lottery Fund, supported 5 youth groups to explore women's history in their community using a youth-led research approach, developed heritage skills and worked towards a SCQF level 5 qualification.

NESS
SEMINAR CODE N1A

Developing middle leadership

Louise Sanders and David Burgess, SCEL

Middle Leaders are the key professionals in Scotland's schools who lead the professional learning of others ensuring the best possible outcomes for young people. This session will explore the leadership of professional learning as a complex and ongoing process rather than an event. There will be discussion about how middle leaders can foster a culture of professional learning in their schools which places learners and their learning at the centre. The session will also outline the ongoing work of SCEL in developing Middle Leadership with particular reference to the Collaborative Middle Leadership Programme, the Effective Middle Leadership Theme Days and the SCEL Framework for Educational Leadership.

MORAR
SEMINAR CODE M1A

Wednesday 19 September – 12.30-13.15

How to effectively embed STEM in the primary curriculum **Maggie Harrison and Jo Clark, Port Ellen Primary School, Argyll and Bute**

How can effective collaboration improve learner experience in STEM? Port Ellen Primary, winners of the 2017 Scottish Education STEM Award, embedded STEM teaching across the four contexts and have worked in a wide range of partnerships to ensure learners are not limited in their ambitions by their remote, island location.

ALSH 1
SEMINAR CODE A1B

Measuring the impact of nurture and attunement principles in strategic nurture groups through collaborative working **Parklands School, Argyll and Bute**

The focus will be on measuring the impact of both Nurture and Attunement Principles in our unique strategic setting and throughout our cluster schools. The collaborative work we do demonstrates the impact these have on the wellbeing of children and their families in school, at home and the wider community.

BOISDALE 1
SEMINAR CODE B1B

Career Pathways Panel for Scotland, looking to the future **Moyra Boland, Independent Chair of Career Pathways Panel and Panel members**

The Education Governance - Next Steps paper states, 'We will work with our partners to establish new career pathways for teachers allowing greater opportunities for development and progression into leadership, specialist or improvement roles.' Establishes in June 2018 the Career Pathways Panel has begun work on its remit, this session is an opportunity to hear about the on-going work of the panel and get involved.

CARRON 1
SEMINAR CODE C1B

Linking the maths curriculum to the world of work **Alessio Gusmeroli, Skills Development Scotland**

Strong numeracy and mathematics are at the core of STEM professions and many scientists would agree that there is no such thing as science without maths. Yet, the teaching of maths is often disconnected from the world of work. In this session we provide work-relevant examples of the maths curriculum.

DOCHART 1
SEMINAR CODE D1B

Play in primary 1

Rebecca Carter, Canal View Primary School, Edinburgh

A seminar exploring our journey from a traditional P1 provision to a free-flow, play-based provision. Working in collaboration with children to develop their learning and create a positive attitude to school from the earliest years.

ALSH 2
SEMINAR CODE A2B

Local authority collaboration, two journeys merging into one bringing together theory and practice to develop mathematically resilient young people

Ronnie McLeod and Helen Currie, West Dunbartonshire Council and David Marsden, South Lanarkshire Council

An overview of the collaboration process between two authorities, combining knowledge and practice to share strategies for raising attainment through CLPL.

West Dunbartonshire and South Lanarkshire's respective journeys involving developing resilience in both primary and secondary contexts and the dissemination of knowledge and practice on a wider scale.

BOISDALE 2
SEMINAR CODE B2B

Cost of the school day: recognising the impact of poverty **Andrea Bradley, EIS**

Facing Up to Child Poverty: recognising the impact of poverty in the classroom, Andrea Bradley and Nicola Fisher, EIS. That at least one in four (260,000) children are living in poverty in Scotland is a matter of real concern for all who have an interest in education and who are committed to equity. This seminar will be based on the EIS publication 'Face up to Child Poverty' which considers the causes and consequences of poverty, and advises teachers and other educators on steps they can take to minimise the negative impacts of socio-economic deprivation on children and young people in school.

CARRON 2
SEMINAR CODE C2B

National Improvement Framework - achieving excellence **The National Improvement Framework and Scottish Attainment Challenge Teams in co-operation with a school/ local authority**

This seminar will look at how the Drivers of Improvement in the National Improvement Framework provide a focus and structure for gathering evidence to identify where the Scottish Attainment Challenge and Pupil Equity funding is helping to close the poverty related attainment gap, and where further improvements can be made. The seminar will utilise practical examples from schools and local authorities to illustrate innovative practice.

DOCHART 2
SEMINAR CODE D2B

Wednesday 19 September – 12.30-13.15

Towards a whole school approach: utilising open educational resources to improve gender equality in STEM **Kay Steven, Equality Challenge Unit**

This seminar will focus on developing a gendered analysis within STEM strategies and classroom practice building on learning from a pilot of ECU's online open educational resource Gender Equality in STEM.

KATRINE
SEMINAR CODE K1B

Developing effective collaborations and partnerships for learning with bilingual families

Robert McGill, Central Peripatetic Support Services, South Ayrshire Council

The Super Tuesday Family Club, EAL Parent Forum and lending library sought to change relationships and the traditional positioning of educational practitioners and bilingual families. The seminar will explore the success and challenges in changing and developing effective relationships with families and acting together to engage with learning.

MORAR
SEMINAR CODE M1B

Calling all researchers! The EIS action research grant initiative

Lesley Walker and colleagues, EIS

The seminar will look at the development of a new EIS initiative which has awarded £500 research grants to support members in undertaking action research. It will also explore some of the findings from selected research projects as well as the impact of enquiry on the researchers' professional learning and development.

NESS
SEMINAR CODE N1B

Wednesday 19 September – 14.00-14.45

Joining the dots with STEM

Paul Downie, Clare Hayes and Claire Neilson Hyndland
Secondary School, Glasgow

Modern schools are hives of activity, often with multiple themes and priorities being focussed on at any given time. This seminar shows how through our Spero Meliara Campaign and our S3 core STEM period, we have weaved together a variety of key messages at the heart of our school vision and values.

ALSH 1
SEMINAR CODE A1C

Readiness for learning (R4L) in Clackmannanshire - trauma-informed approaches to addressing the equity gap

Lesley Taylor, Clackmannanshire Educational Psychology Service

A collaborative seminar between Clackmannanshire Educational Psychology Service and two case study schools to share the background, rationale and theoretical basis to the Readiness for Learning (R4L) approach. Practical strategies and examples will also be shared to illustrate how the R4L approach works in practice.

BOISDALE 1
SEMINAR CODE B1C

Peebles High School - collaborative multi-agency approach to DYW

Gill Geddes, Peebles High School, Scottish Borders

Peebles High School will showcase how they are taking forward Developing the Young Workforce for all learners. The seminar will focus on: using progressive learning and a range of initiatives to prepare our learners for the world of work; implementing the Careers Education Standard and Work Placements Standard across the curriculum; and the successful delivery of work-based learning opportunities in partnership with a range of organisations and employers.

CARRON 1
SEMINAR CODE C1C

Physical education - a problem solving curriculum

Jonny Penman, PEPASS Team, Glasgow

Sharing good practice and theory to develop pedagogy in PE while developing skills for learning, life and work. Practical examples of how to implement a pupil led curriculum that will have an impact on teacher's and pupil's development beyond PE. Pupils and teachers collaborate to determine how lessons will be focussed in this innovative, interesting practice.

DOCHART 1
SEMINAR CODE D1C

Isolation is no longer splendid: how the power of partnership working can help to break the intergenerational cycle of poor spoken language and attainment

Gayle Martin-Brown, Sealock House, Children's Services, Falkirk

Ten years ago Falkirk Education and Speech and Language Therapy developed a vision to meet the communication needs of all children in Falkirk, regardless of their socio-economic background. This seminar will describe how we transformed our partnership working and the significant impact this is having on children's attainment and spoken language.

ALSH 2
SEMINAR CODE A2C

STEM in the early years - partnerships and collaboration

Alex McLaughlin, Glasgow City Council

STEM Glasgow will host Burnbrae CC, Shaw Mhor EYC and Jimmy Dunnachie FLC with the early year's establishments sharing their National STEM Cluster Programme journey and their collaborative approaches to STEM. The focus will be on partnerships with the community, parents, industry and FE whilst highlighting the impact on children and staff.

BOISDALE 2
SEMINAR CODE B2C

National review of personal and social education (PSE)

Maggie Fallon, Education Scotland

This seminar will be delivered through collaboration between ES/SG and one of the schools visited in the review. We will discuss the findings of the review and delegates will have the opportunity to hear from Scottish Government policy colleagues about the next steps in taking the findings forward. The session will also include the opportunity to hear from one of the schools visited to hear about their journey in implementing innovative approaches to developing and delivering their PSE/H&W programmes.

CARRON 2
SEMINAR CODE C2C

Update on inspection and review

Louise Turnbull, Education Scotland

Delegates will find out more about how approaches to inspection have supported schools on their improvement journey.

DOCHART 2
SEMINAR CODE D2C

Wednesday 19 September – 14.00-14.45

The Wee Spanish mobile library: learning through storytelling

Maria Soledad Montanez, Familias en Glasgow-Club Soletes

The seminar will explore the ways the community project- The Wee Spanish Mobile Library is engaged and supports the 1+2 programme through storytelling. Our storytelling sessions aim to explore Spanish language learning through a holistic and interdisciplinary approach based on creativity and imagination.

KATRINE
SEMINAR CODE K1C

Future-proofing education through co-design with young people

Paul Gault, Young Scot

We will host an interactive session where young people will help lead and work with delegates using a co-design approach. This will build upon some of the key findings which have emerged through Young Scot’s extensive experience in gathering young people’s views on education including the opportunities and challenges related to sharing power with young people.

LEVEN
SEMINAR CODE L1C

Supporting teacher leadership

Fearghal Kelly, SCEL

How can we support teachers who have experience of practitioner enquiry to support others to develop as enquiring practitioners? In this seminar we will share the outcomes from our “Supporting Teacher Leadership” programme which aims to support teachers to use their understanding and experience of practitioner enquiry to support others.

MORAR
SEMINAR CODE M1C

Wednesday 19 September – 15.15-16.00

Raising Aspirations in Science Education (RAiSE) - building practitioners confidence in primary science and STEM

Gayle Duffus, Education Scotland

This seminar will share an overview of key learnings and progress made during the national pilot of RAiSE, hearing from practitioners, development officers and learners who have benefitted from the programme. We will explore how innovative, accessible approaches to science and STEM education are directly improving learners' experiences and delivering upon national priorities.

ALSH 1
SEMINAR CODE A1D

Interventions for equity: research and evidence and the Scottish version of the teaching and learning toolkit

Scottish Government, Education Scotland and staff from Darnley Primary School, Glasgow and St Columba's High School, Inverclyde

The Government's Education Governance Review starts from the presumption that decisions about the child should be taken as close to that child as possible. This session provides an opportunity to hear about the development of the regional improvement collaboratives.

ALSH 2
SEMINAR CODE A2D

New Awards in Mental Health and Wellbeing Education Scotland, SQA

SQA's new National Progression Award in Mental Health and Wellbeing has been developed at level 4 and level 5 on the Scottish Credit and Qualifications Framework. The aims of the Awards are to reduce the stigma surrounding mental health, promote knowledge and create resilience. SQA has experienced unprecedented interest in these Awards and this seminar will familiarise delegates with the content, purpose and assessments, with the input of a delivering teacher.

BOISDALE 1
SEMINAR CODE B1D

Blended learning; how technology can enhance learning and teaching both in the classroom and beyond

Tracy Atkinson, University of Strathclyde

Digital Education and 21st Century Skills Development: this session will explore the role of technology in developing core competencies such as: communication and collaboration skills, creativity, critical thinking, problem-solving, knowledge-construction and self-regulation. Examples of good practice from Primary, Secondary and Higher education will be shared.

BOISDALE 2
SEMINAR CODE B2D

Profiling in the context of DYW: new guidance and My World of Work toolkit

Derek Hawthorne, Skills Development Scotland

This seminar will provide participants with an insight into the new profiling guidance developed around DYW and the supporting tools available on My World of Work. At the same time we will focus on how the new perspective on profiling aims to bring more clarity to the discussion on referencing skills development and acknowledging wider achievement in line the Learner Journey review.

CARRON 1
SEMINAR CODE C1D

Our digital rights: a shared responsibility

Young Scot 5Rights Youth Leadership Group

The Young Scot 5Rights Youth Leadership Group wants to challenge the way you look at 'digital natives'. In this seminar this diverse group of young people share their passion for championing their digital rights, and invite you to rethink your approach in empowering young people in an increasingly digital world.

CARRON 2
SEMINAR CODE C2D

Quality in early learning and childcare – key messages from inspection

Barbara Daly and Jackie Maley, Education Scotland

We would like to provide an overview of the key messages coming from inspection within ELC. This is a time of significant change within the sector and there is a welcome focus on the retention and building of quality as we approach expansion in 2020. By providing an overview of messages from inspection we can share a national perspective of strengths and key areas for improvement.

DOCHART 1
SEMINAR CODE D1D

Collaborating with parents on improvement planning

Beverley Ferguson, Education Scotland

This seminar will consider:

- legislation/guidance on improvement planning
- benefits of increasing the voice of parents and the wider learning community in improvement planning
- improvement planning
- data sources
- involving parents in improvement planning
- examples of good practice

DOCHART 2
SEMINAR CODE D2D

Wednesday 19 September – 15.15-16.00

Malawi-Scotland school collaboration - learning for sustainability

Douglas Young and Nicola Barker-Harrison, Beath High School, Fife

To use our partnership to exemplify how, by placing 'Learning for Sustainability' at the centre of the life and work of school, you can provide a tangible, international context to learning - creating endless opportunities to consider global citizenship, the UN Global Goals and children's rights – all while developing genuine friendships.

LEVEN
SEMINAR CODE L1D

Professional update goes viral: developing meaningful connections through the professional standards

Vikki Robertson, GTCS

This seminar will consider the connections being made in Scotland across the school and college learning communities through high quality professional learning

- Why have colleges in Scotland embraced Professional Update?
- What difference is it beginning to make to a lecturers' professional practice?
- What is the impact on learners?

MORAR
SEMINAR CODE M1D

Measuring quality in teacher education

Paul Adams, University of Strathclyde

This seminar outlines government funded research investigating quality ITE across Scotland. The project is a collaboration between all Scottish higher education institutions offering ITE and GTCS. It runs for 6 years and its main activity is to track a cohort of ITE graduates in the first 5 years following graduation.

KATRINE
SEMINAR CODE K1D

The International Council of Education Advisers

This session will provide an opportunity to hear the First Minister's International Council of Education Advisers discuss their report, and the recommendations they have made, following the first 2 years of advising Ministers on how best to achieve excellence and equity in our Scottish education system.

LOMOND AUDITORIUM
SEMINAR CODE LA4

Wednesday 19 September – 16.15-17.00

Parent and pupil engagement with Read, Write, Count

Antonia Clark, Scottish Book Trust

Scottish Book Trust and Fife Council discuss how using Read, Write, Count can engage and motivate parents to become involved in their child's learning. With examples of best practice and resources for P1-7, discover how embedding cross curricular learning and a new approach to homework has built lasting, positive relationships with families.

ALSH 1
SEMINAR CODE A1E

Pupil Equity Fund (PEF) - emerging impact

Scottish Government, Education Scotland and staff from St John Ogilvie High School, South Lanarkshire and Canal View Primary School, Edinburgh

PEF is allocated directly to schools and targeted at promoting excellence and equity for Scotland's learners to close the poverty related attainment gap. This seminar will explore three different approaches to the planning and implementation of interventions across literacy, numeracy and health and wellbeing. Attainment Advisors will explore processes, outcomes, measures and emerging impact on improving outcomes for learners.

ALSH 2
SEMINAR CODE A2E

Learner participation in educational settings (2018) and How good is OUR school? toolkit to support learner participation in self-evaluation and school improvement

Gail Nowek, Education Scotland

In Spring 2018 Education Scotland launched two new resources to support learner participation in self-evaluation and the wider school life and community, including school improvement planning. These resources were developed with children and young people to support them to have meaningful engagement in discussions and decisions about their school and community. The Learner Participation guidance also explores how children and young people can be supported to participate in a wide range of arenas within their school, early years setting and community. By attending this seminar, you can find out more about these resources and hear from young people about how they are using them in to inform self-evaluation and wider participation in their school and early years setting.

BOISDALE 1
SEMINAR CODE B1E

Growth maths: an approach to Mathematics which uses growth mindset messages to raise attainment

David Duncan, Netherlee Primary School, East Renfrewshire

Every child has a mathematical journey to take and this begins by considering the opportunities for learning and growth today. Higher levels of potential result from a culture of development and some careful thinking about mathematical brains. Inspired by the knowledge that mathematical potential is unlimited, this workshop aims to set out on a journey: A brighter mathematical future for all.

BOISDALE 2
SEMINAR CODE B2E

Access all areas

Hamish Budge, Comhairle nan Eilean Siar

A journey describing the development of Glow tools and various hardware in finding a solution to teach remotely in order to help "improve access to digital technology for all learners".

CARRON 1
SEMINAR CODE C1E

Challenge to change: equality

Christy Stevenson, Perth Grammar School, and Natasha Sturrock, Perth High School

1918-2018: 100 year celebration of votes for women and equality being at the heart of discussions with in schools.

Perth Grammar School and Perth High School have been working collaboratively to hold a conference in March 2018 lead by pupil voice. They seek to challenge the unspoken truth of teen society. This in essence has led to the overarching vision of equality and questioning numerous areas where it does/does not exist.

CARRON 2
