Briefing on Gaelic Education
August 2017
Failte
Welcome to our Briefing for Gaelic Education. This briefing includes information on Gaelic Medium Education (GME); Gaelic Learner Education (GLE) and the promotion of Learning about Gaelic Language and Culture as part of Scotland’s identity.

Strategic Objective 1: Build a world-class curriculum for all learners in Scotland

1. New resources

New to the National Improvement Hub are the following resources:

Key messages for schools from HM Chief Inspector of Education: August 2017
These key messages reinforce the need for schools to use the Statement for Practitioners to plan learning, teaching and assessment. It focuses on colleagues working together to embed Curriculum for Excellence, streamline assessment and close the poverty related attainment gap. Practitioners in GME will find it useful to refer to the Advice on Gaelic Education along with these key messages.

The Moderation Cycle
This replaces the NAR Flowchart. It outlines each stage of the moderation process and supports teachers in developing a shared understanding of standards and expectations in the broad general education.

The Gaelic versions of the following Curriculum for Excellence Benchmarks are now available:

Literacy and Gàidhlig
Health and Wellbeing (Food and Health)
Health and Wellbeing (Personal and Social Education)
Health and Wellbeing (Physical Education)

These resources will help promote dialogue through the medium of Gaelic and assist in reducing bureaucracy for practitioners.

For regular updates on Gaelic, please visit our learning blog for Gaelic Medium Education and Gaelic Learner Education.

Strategic Objective 2: Promote high-quality professional learning and leadership amongst education practitioners
2. E-Sgoil: A digital solution for Gaelic Medium Education  
Scottish Learning Festival, 9.30am on Wednesday 20th September 2017
