

**SOLUTION FOCUSED GROUP QUESTIONS**

**Using digital technologies to build a curriculum through the medium of Gaelic and to learn Gaelic at the secondary stages**

How can we get schools and local authorities into a position where pupils right across the country can take advantage of such opportunities offered by E- Sgoil?

If we were to sponsor some pilot activity in this, where would you advise we start in terms of curriculum planning, needs and opportunities?

- What would best practice look like in Gaelic Education transition planning?
- What should parents and pupils ideally expect from a Broad General Education experience in GME and, how do we achieve this? What are the key building blocks required to ensure that we can make such an ideal reality over the next five years?
- How do we best use the Senior Phase for opening up opportunities for GME pupils and Gaelic Learners alike, and how do we get there?
- To what extent is the E-Sgoil development something that can take us forward in ensuring improved curriculum opportunities for GME and for Gaelic Learners? What are the key building blocks required in your school / authority to take full advantage of E-Sgoil? What will success look like?
