5. Quality and Improvement in Scottish Education

We have now published the individual chapters from the Quality and Improvement in Scottish Education report on our website, along with the full report. This report gives a review of our inspection findings for the period 2012-2016. It highlights areas of growing strength and key areas for further improvement. For the first time, we have included a chapter on Gaelic Medium Education (GME) which exemplifies the growth of the sector. This chapter is available at:

[PDF file: Gaelic Medium Education \(126 KB\)](#)

We would encourage those with responsibility for Gaelic Learner and Medium Education across sectors to engage with the report. In particular, the findings for Gaelic and to build these into improvement planning. Addressing these areas for improvement effectively will make a decisive contribution to achieving the twin aims of excellence and equity for Scottish learners, which sits at the heart of the National Improvement Framework. For more information to support improvement, please use our [Advice on Gaelic Education](#).
