Dear Parent/Carer

In May 2024, a team of inspectors from Education Scotland visited North Ronaldsay Community School. During our visit, we talked to parents/carers and children and worked closely with the headteacher and staff.

The inspection team found the following strengths in the school's work.

- Children learn in a nurturing environment where positive relationships are evident across the school community. Children are eager to talk about their learning and their life on North Ronaldsay.
- The headteacher is bringing stability and direction to the school community. She has introduced effective processes to improve the quality of teaching and children's learning experiences.
- Staff's introduction of a wider range of opportunities for children to achieve and learn new skills, this is helping children to be more confident and resilient.

The following areas for improvement were identified and discussed with the headteacher and a representative from Orkney Islands Council.

- Staff should provide children with more opportunities to be active and independent in purposeful learning.
- Staff should increase the pace of planned learning to ensure children make the best possible progress.
- Staff should continue to address gaps in children's literacy and numeracy to raise levels of attainment.

We gathered evidence to enable us to evaluate the school's work using quality indicators from [How good is our school? \(4<sup>th</sup> edition\)](#). Quality indicators help schools, local authorities and inspectors to judge what is working well and what needs to be improved. Following the inspection of each school, the Scottish Government gathers details of our evaluations to keep track of how well Scottish schools are doing.

### What happens next?

We are confident that the school has the capacity to continue to improve and so we will make no more visits in connection with this inspection. Orkney Islands Council will inform parents/carers about the school's progress as part of its arrangements for reporting on the quality of its schools.
