

Castlemilk High School

Work Placement

In Castlemilk High School we offer the young people flexible and tailor made work placement opportunities. This ensures that all young people have the opportunity to attend a placement that enhances their learning and have a positive experience in the world of work.

We track the young people using the 'Skills and Aspirations Forms' and match them with suitable placements. We also use our 'homemade' tracker which is a record of all young people in the school and their work related learning. This is updated regularly to include any work based learning enabling us to target young people who have not experienced any suitable work based learning and allowing us to target them individually.

Accreditation

SQA Work Placement Units
Employability Awards level 3
