Equality and Equity Health Check

(an audit tool to support focus on Equality and Equity priorities)

Following on from the previous discussion, the aim of this activity is to look at what is currently happening in the school community to make sure everyone is treated equally.

- Ask each member of the team to complete the health check; this may produce some interesting results as different people have different perceptions, understanding and awareness of what is happening.
- Consider what is working well and where there is room for improvement.
NB: some of the statements may not be relevant in your school community.
- Remember, you can't do everything! Focus on priorities – it is all about taking small, achievable, and measurable steps.
