

On behalf of the Eco group could you please ask your children the following questions and send me their answers? It is for a pre-project evaluation. Please get as many responses as possible.

P 1 to 7 collated answers

1. How did you feel/ What did you think when we suggested getting chickens?

Happy, very excited

jumped up and down

want to see them straight away

made me feel our school is really good

we are so lucky to have so many opportunities

quite surprised

I'm already thinking of names

interested

Couldn't believe it!

I love chickens

2. What are you looking forward to when we have chickens?

The eggs

feeding them and looking after them

hearing them clucking in the playground

eating eggs

baking and cooking with eggs

seeing and petting them

naming them

watching them hatch

3. What activities/ learning do you think you will be involved in?

Feeding them

cleaning the coup

filling up water container

Replacing bedding

keeping them warm with straw/ hay

Teach us how to feed them

Can we stroke them?

You will teach us how to take care of their eggs and keep them safe

4. What skills might you gain?

Learn how to bring out the eggs

hold a chicken

*lock and unlock the cage
and female*

how to tell the difference between male

looking after/ taking care of creatures/ helping animals

learn about chickens and learn from them

learn to be careful and gentle

teamwork and taking turns

5. What do you already know anything about chickens and looking after them?

Eggs make chicks

Chicks go in incubators to keep them warm

You need to be gentle with chicks

Take care putting fingers through cage

Be careful when feeding.

Keep them healthy

You can't be too rough.

They can't fly high.

We need to keep them safe from predators.

My gran has a chicken coop, they can peck you.

I've fed chickens before
