

KILMACOLM PRIMARY SCHOOL AND NURSERY CLASS

'Let's Grow and Cook Together'

A 'Food For Thought' Education Scotland funded project

SECOND LEVEL FOOD AND HEALTH	Experiences and Outcomes for planning learning, teaching and assessment	Benchmarks to support practitioners' professional judgement YEAR 1	Benchmarks to support practitioners' professional judgement YEAR 2	Benchmarks to support practitioners' professional judgement YEAR 3
The Food Experience <ul style="list-style-type: none"> • Tasting, Selecting and Evaluating 	I enjoy eating a diversity of foods in a range of social situations. HWB 2-29a	<ul style="list-style-type: none"> • Uses sensory descriptors to describe foods, for example, taste, texture, appearance, smell. 	<ul style="list-style-type: none"> • Uses sensory descriptors to describe foods, for example, taste, texture, appearance, smell. 	<ul style="list-style-type: none"> • Uses sensory descriptors to describe foods, for example, taste, texture, appearance, smell. • Identifies, prepares and selects foods for a range of situations, for example, social, cultural, religious events.
Developing Healthy Choices <ul style="list-style-type: none"> • Linking Food and Health • Decision Making 	By applying my knowledge and understanding of current healthy eating advice, I can contribute to a healthy eating plan. HWB 2-30a	<ul style="list-style-type: none"> • Explains the importance of keeping hydrated. 	<ul style="list-style-type: none"> • Explains the proportions each food group should contribute to a healthy eating plan. • Identifies and classifies composite dishes according to the food groups, for example, lasagne, chicken stir fry. • Outlines at least three current healthy eating messages, for example, lowering salt and sugar intake. • Explains the importance of keeping hydrated. 	<ul style="list-style-type: none"> • Explains the proportions each food group should contribute to a healthy eating plan. • Identifies and classifies composite dishes according to the food groups, for example, lasagne, chicken stir fry. • Outlines at least three current healthy eating messages, for example, lowering salt and sugar intake. • Creates a healthy eating plan which reflects current dietary advice, prepares food which contributes to it and compares plan to own diet. • Identifies simple changes or improvements to own diet. • Explains the importance of keeping hydrated.

<p>Nutritional Needs</p> <ul style="list-style-type: none"> • Varied Diet • Individual Needs • Stages of Life 	<p>I understand that people at different life stages have differing nutritional needs and that some people may eat or avoid certain foods. HWB 2-32a</p>	<ul style="list-style-type: none"> • Recognises that all food and drink provides different levels of nutrients. 'Lists the five nutrient groups. • Recognises that energy is provided by carbohydrates, fats and proteins and that vitamins and minerals are required to keep the body healthy. • Explains at least three nutritional requirements at different stages of life, for example energy, protein, calcium. 	<ul style="list-style-type: none"> • Recognises that all food and drink provides different levels of nutrients. 'Lists the five nutrient groups. • Recognises that energy is provided by carbohydrates, fats and proteins and that vitamins and minerals are required to keep the body healthy. • Explains at least three nutritional requirements at different stages of life, for example energy, protein, calcium. • Suggests why people might avoid certain foods, for example, religion, culture, allergies, medical reasons. 	<ul style="list-style-type: none"> • Recognises that all food and drink provides different levels of nutrients. 'Lists the five nutrient groups. • Recognises that energy is provided by carbohydrates, fats and proteins and that vitamins and minerals are required to keep the body healthy. • Explains at least three nutritional requirements at different stages of life, for example energy, protein, calcium. • Suggests why people might avoid certain foods, for example, religion, culture, allergies, medical reasons.
<p>Keeping Safe and Hygienic</p> <ul style="list-style-type: none"> • Principles of Food, Safety and Hygiene 	<p>Having learned about cleanliness, hygiene and safety, I can apply these principles to my everyday routines, understanding their importance to health and wellbeing. HWB 2-33a</p>	<ul style="list-style-type: none"> • Makes food items safely and hygienically, adhering to allergies, cleaning, cross contamination, cooking, chilling. 	<ul style="list-style-type: none"> • Makes food items safely and hygienically, adhering to allergies, cleaning, cross contamination, cooking, chilling. • Identifies ways to reduce the risk of food poisoning, for example, reheating food until piping hot, safe food storage, different coloured chopping boards. • Explains the difference between Use By and Best Before dates. • Creates a risk assessment for a practical food session. 	<ul style="list-style-type: none"> • Makes food items safely and hygienically, adhering to allergies, cleaning, cross contamination, cooking, chilling. • Identifies ways to reduce the risk of food poisoning, for example, reheating food until piping hot, safe food storage, different coloured chopping boards. • Explains the difference between Use By and Best Before dates. • Creates a risk assessment for a practical food session.

<p>The Journey of Food</p> <ul style="list-style-type: none"> • From Farm to Fork • Sustainability • Influences on Consumer Choices • Preparing Food Appropriate to Learning 	<p>When preparing and cooking a variety of foods, I am becoming aware of the journeys which foods make from source to consumer, their seasonality, their local availability and their sustainability. HWB 2-35a</p> <p>Through exploration and discussion, I can understand that food practices and preferences are influenced by factors such as food sources, finance, culture and religion. HWB 2-34a</p> <p>By investigating food labelling systems I can begin to understand how to use them to make healthy food choices. HWB 2-36a</p> <p>I can understand how advertising and the media are used to influence consumers. HWB 2-37a</p>		<ul style="list-style-type: none"> • Describes the journey of food from source to plate for example, from the sea, farms or factories to markets, supermarkets or direct to consumer. • Creates a dish using fresh, local, seasonal ingredients and calculates food miles of key ingredients. • Identifies factors that may influence food choice, for example, religious, cultural, geographical, ethical factors. 	<ul style="list-style-type: none"> • Describes the journey of food from source to plate for example, from the sea, farms or factories to markets, supermarkets or direct to consumer. • Creates a dish using fresh, local, seasonal ingredients and calculates food miles of key ingredients. • Compares the cost of identified ingredients to establish the most economical source. • Identifies factors that may influence food choice, for example, religious, cultural, geographical, ethical factors. • Uses different food labelling systems to select foods for a specified dietary requirement, for example, low in fat. • Identifies three methods of persuasion used by media/advertisers to influence consumers, for example, logos.
---	--	--	--	---

<p>Food and Textile Technologies</p> <ul style="list-style-type: none"> • Creativity • Design • Dexterity • Problem Solving • Developing Appropriate Items 	<p>I am developing dexterity, creativity and confidence when preparing and cooking food. TCH 2-04a</p> <p>I am developing dexterity, creativity and confidence when working with textiles. TCH 2-04b</p> <p>I can extend and explore problem-solving strategies to meet increasingly difficult design challenges with a food or textile focus. TCH 2-04c</p> <p>I can discuss, debate and improve my ideas with increasing confidence and clear explanations. TCH 2-04d</p>	<ul style="list-style-type: none"> • Demonstrates an increasing range of practical skills and cooking techniques, for example, weighing and measuring, kneading, chopping, baking, grilling. 	<ul style="list-style-type: none"> • Demonstrates an increasing range of practical skills and cooking techniques, for example, weighing and measuring, kneading, chopping, baking, grilling. 	<ul style="list-style-type: none"> • Demonstrates an increasing range of practical skills and cooking techniques, for example, weighing and measuring, kneading, chopping, baking, grilling. • Within a food context; Investigates a challenge / problem. • Identifies and demonstrates ways to solve the challenge / problem. • Plans and reaches the solution. • Assesses solution against own criteria. • Identifies at least one possible improvement.

SECOND LEVEL SCIENCE	Experiences and Outcomes for planning learning, teaching and assessment	Benchmarks to support practitioners' professional judgement YEAR 1	Benchmarks to support practitioners' professional judgement YEAR 2	Benchmarks to support practitioners' professional judgement YEAR 3
<p>Planet Earth</p> <ul style="list-style-type: none"> • Biodiversity and Interdependence • Energy Sources and Sustainability • Processes of the Planet 	<p>I can identify and classify examples of living things, past and present, to help me appreciate their diversity. I can relate physical and behavioural characteristics to their survival or extinction. SCN 2-01a</p> <p>I can use my knowledge of the interactions and energy flow between plants and animals in ecosystems, food chains and webs. I have contributed to the design or conservation of a wildlife area. SCN 2-02a</p> <p>Through carrying out practical activities and investigations, I can show how plants have benefited society. SCN 2-02b</p> <p>I have collaborated in the design of an investigation into the effects of fertilisers on the growth of plants. I can express an informed view of the risks and benefits of their use. SCN 2-03a</p> <p>I can apply my knowledge of how water changes state to help me understand the processes involved in the water cycle in nature over time. SCN 2-05a</p>	<p>*see First Level Benchmarks for guidance</p>	<ul style="list-style-type: none"> • Classifies living things into plants (flowering and non-flowering) through knowledge of their characteristics. • Begins to construct and use simple branched keys which can be used to identify particular plants or animals. 	<ul style="list-style-type: none"> • Classifies living things into plants (flowering and non-flowering) through knowledge of their characteristics. • Begins to construct and use simple branched keys which can be used to identify particular plants or animals • Collaborates with others to present a reasoned argument, based on evidence, of the risks and benefits of using fertilisers, demonstrating understanding of the underlying scientific concepts. • Discusses the necessity of water for life, for example, for the growth of crops, for drinking and in river formation/flow. • Demonstrates understanding of the processes involved in the water cycle.

<p>Biological Systems</p> <ul style="list-style-type: none"> • Body Systems and Cells • Inheritance 	<p>By investigating some body systems and potential problems which they may develop, I can make informed decisions to help me to maintain my health and wellbeing. SCN 2-12a</p> <p>By investigating the lifecycles of plants and animals, I can recognise the different stages of their development. SCN 2-14a</p>	<p>*see First Level Benchmarks for guidance</p>	<ul style="list-style-type: none"> • Describes the function of the circulatory system (heart and blood vessels), for example, transport of food, oxygen and waste materials. • Discusses the main preventable causes of heart disease or stroke, for example, obesity, lack of exercise, smoking and high (saturated) fat diet. • Describes the function of the digestive system (mouth, oesophagus, stomach, liver, small intestine, large intestine, rectum and anus), for example, breakdown of food and absorption of nutrients, minerals and water. • Investigates and explains how a seed germinates into a plant using water, oxygen, a food store and warmth. 	<ul style="list-style-type: none"> • Describes the function of the circulatory system (heart and blood vessels), for example, transport of food, oxygen and waste materials. • Discusses the main preventable causes of heart disease or stroke, for example, obesity, lack of exercise, smoking and high (saturated) fat diet. • Describes the function of the digestive system (mouth, oesophagus, stomach, liver, small intestine, large intestine, rectum and anus), for example, breakdown of food and absorption of nutrients, minerals and water. • Discusses some common problems of bones (for example, arthritis, osteoporosis and breaks) and how their incidence can be reduced (for example, through calcium in the diet and weight-bearing exercise)
--	---	---	---	--

<p>Materials</p> <ul style="list-style-type: none"> • Properties and Uses of Substances 	<p>By contributing to investigations into familiar changes in substances to produce other substances, I can describe how their characteristics have changed. SCN 2-15a</p>		<ul style="list-style-type: none"> • Investigates and explains physical changes to the properties of materials which are fully and partially reversible, for example, salt dissolving in water, chocolate melting and water freezing. • Uses scientific vocabulary such as 'melting', 'freezing', 'evaporating' and 'condensing' to describe changes of state. • Observes and identifies some of the signs of a chemical reaction, for example, production of bubbles, colour/ texture change and heat given out/ taken in. 	<ul style="list-style-type: none"> • Investigates and explains physical changes to the properties of materials which are fully and partially reversible, for example, salt dissolving in water, chocolate melting and water freezing. • Uses scientific vocabulary such as 'melting', 'freezing', 'evaporating' and 'condensing' to describe changes of state. • Investigates and records chemical changes to the properties of materials which are irreversible, for example, cooking, rusting and striking a match. • Observes and identifies some of the signs of a chemical reaction, for example, production of bubbles, colour/ texture change and heat given out/ taken in.
<p>Topical Science</p> <ul style="list-style-type: none"> • Topical Science 	<p>I can report and comment on current scientific news items to develop my knowledge and understanding of topical science. SCN 2-20b</p>	<ul style="list-style-type: none"> • Demonstrates understanding of how science impacts on every aspect of our lives. • Relates the development of scientific skills in the classroom to an increasingly wide variety of science, technology, engineering and mathematics (STEM) careers. 	<ul style="list-style-type: none"> • Demonstrates understanding of how science impacts on every aspect of our lives. • Relates the development of scientific skills in the classroom to an increasingly wide variety of science, technology, engineering and mathematics (STEM) careers. 	<ul style="list-style-type: none"> • Demonstrates understanding of how science impacts on every aspect of our lives. • Relates the development of scientific skills in the classroom to an increasingly wide variety of science, technology, engineering and mathematics (STEM) careers.

SECOND LEVEL MATHEMATICS & NUMERACY	Experiences and Outcomes for planning learning, teaching and assessment	Benchmarks to support practitioners' professional judgement YEAR 1	Benchmarks to support practitioners' professional judgement YEAR 2	Benchmarks to support practitioners' professional judgement YEAR 3
<p>Number, Money and Measure</p> <ul style="list-style-type: none"> • Money 	<p>I can manage money, compare costs from different retailers, and determine what I can afford to buy. MNU 2-09a</p> <p>I understand the costs, benefits and risks of using bank cards to purchase goods or obtain cash and realise that budgeting is important. MNU 2-09b</p> <p>I can use the terms profit and loss in buying and selling activities and can make simple calculations for this. MNU 2-09c</p>	<ul style="list-style-type: none"> • Calculates profit and loss accurately, for example, when working with a budget for an enterprise activity. 	<ul style="list-style-type: none"> • Calculates profit and loss accurately, for example, when working with a budget for an enterprise activity. 	<ul style="list-style-type: none"> • Calculates profit and loss accurately, for example, when working with a budget for an enterprise activity.

SECOND LEVEL TECHNOLOGIES	Experiences and Outcomes for planning learning, teaching and assessment	Benchmarks to support practitioners' professional judgement YEAR 1	Benchmarks to support practitioners' professional judgement YEAR 2	Benchmarks to support practitioners' professional judgement YEAR 3
<p>Food and Textile</p> <ul style="list-style-type: none"> • Food and Textile 	<p>I am developing dexterity, creativity and confidence when preparing and cooking food TCH 2-04a</p> <p>I am developing dexterity, creativity and confidence when working with textiles TCH 2-04b</p> <p>I can extend and explore problem solving strategies to meet increasingly difficult challenges with a food or textile focus TCH 2-04c</p> <p>I can discuss, debate and improve my ideas with increasing confidence and clear explanations TCH 2-04d</p>	<ul style="list-style-type: none"> • Demonstrates an increasing range of practical skills and cooking techniques for example accurate weighing and measuring, kneading, chopping, baking, grilling 	<ul style="list-style-type: none"> • Demonstrates an increasing range of practical skills and cooking techniques for example accurate weighing and measuring, kneading, chopping, baking, grilling 	<ul style="list-style-type: none"> • Demonstrates an increasing range of practical skills and cooking techniques for example accurate weighing and measuring, kneading, chopping, baking, grilling • Investigates a challenge / problem • Identifies and demonstrates ways to solve the challenge / problem • Identifies and selects appropriate resources to solve the challenge/ problem • Plans and makes the solution • Assesses solution against own criteria • Identifies at least one possible improvement

SECOND LEVEL SOCIAL SUBJECTS	Experiences and Outcomes for planning learning, teaching and assessment	Benchmarks to support practitioners' professional judgement YEAR 1	Benchmarks to support practitioners' professional judgement YEAR 2	Benchmarks to support practitioners' professional judgement YEAR 3
People in society, economy and business	By experiencing the setting up and running of a business, I can collaborate in making choices relating to the different roles and responsibilities and have evaluated its success. SOC 2-22a	<ul style="list-style-type: none"> • Identifies the main business functions such as production, sales, marketing, and administration. • Takes a role in setting up or running a small enterprise. • Evaluates the success of the enterprise. 	<ul style="list-style-type: none"> • Identifies the main business functions such as production, sales, marketing, and administration. • Takes a role in setting up or running a small enterprise. • Evaluates the success of the enterprise. 	<ul style="list-style-type: none"> • Identifies the main business functions such as production, sales, marketing, and administration. • Takes a role in setting up or running a small enterprise. • Evaluates the success of the enterprise.
