

Our school is open minded, welcoming new ideas, cultures and people with open arms

Our school is curious, always asking questions and following our own interests

Our school is creating the brilliant minds who will shape the future, making it their own

Our school is imaginative, sharing and celebrating our ideas and inventiveness, and asking 'What if...?'

Our school is a problem solving school, sticking with a challenge until we find something that works

We all need creativity skills. We can all be creative.
