

Follow-up findings for Career Information, Advice and Guidance services delivered by Skills Development Scotland in Midlothian

Publication date – 26 October 2018

Progress made on the main points for action:

- SDS managers should ensure all staff are contributing to the delivery of the service offer and that area targets are met.

Satisfactory progress has been made.

- Careers staff should ensure that group-work activities are sufficiently engaging to meet the needs of all customers.

Satisfactory progress has been made.

- SDS managers should ensure that all staff engage systematically and productively in professional reflection and action planning for improvement.

Satisfactory progress has been made.

- The Local Authority should ensure that staff in secondary schools are embedding CMS and the requirements of the CES sufficiently within the wider curriculum.

Satisfactory progress has been made.
