Key Resilience Issue

- We are a new school within a community that already supports one other primary school. We need to create a school community of our own with positive links for all.
- Pupils have very few opportunities within our community to speak Gaelic and to take part in activities that celebrate their Bilingualism.

Self-evaluation/Key Qis
 1.3 Leadership of change
 2.6 TRANSITIONS
 2.7 Partnerships
 3.1 ENSURING
 WELLBEING, EQUALITY

Planning

- Work with all stakeholders to finalise our Vision and Values.
- Allow all stakeholders to have final decision on components of our càrn.
- Have càrn produced by local artist to be put on display within school, on curriculum rationale etc.
- Encourage interactions between school and community to allow us to produce a bank of contacts for 'Our school Community.'
- Celebrate these connections at annual Prizegiving and ensure stakeholders are aware of these through social media, newsletters etc.

Assessment and Moderation
 Ongoing at moment.
