

Quality indicators help early learning and childcare settings, education authorities and inspectors to judge what is good and what needs to be improved in the work of the early learning and childcare setting. You can find these quality indicators in the publication *Child at the Centre(2)*¹. Following our inspection of each early learning and childcare setting, the Scottish Government gathers evaluations of three important quality indicators to keep track of how well all Scottish early learning and childcare settings are doing.

Here are the evaluations for **Carousel Nursery**

Improvements in performance	very good
Children's experiences	very good
Meeting learning needs	good

We also evaluated the following aspects of the work of the early learning and childcare setting

The curriculum	good
Improvement through self-evaluation	good

A sample of parents, children and young people, and all members of staff were invited to give their views of the school using a pre-inspection questionnaire. Their views informed the inspection process, including the nature of discussions in a number of meetings. Strengths and issues identified were explored by the inspection team, and the findings are included in the inspection report. The following information gives the statistical detail from those that returned questionnaires.
