Safeguarding

Play pedagogy

Play at this time is not trivial, it is highly serious and of deep significance (Froebel, 1826)

Parental engagement & involvement

The value of outdoors & natural world

**Equity!**

# SCOTTISH CURRICULUM FRAMEWORK

Curriculum is defined as the totality of all that is planned for children and young people from **early learning and childcare**, through school and beyond. That totality can be planned for and experienced by learners across **four contexts**: the ethos and life of the school as a community; opportunities for personal achievement; interdisciplinary learning; and curriculum areas and subjects. Individual settings and practitioners are empowered to make the decisions needed to provide a coherent, flexible and enriched curriculum that is adaptable and responsive to the diverse needs of individual learners and which reflects the uniqueness of their communities.
