Early level <ul style="list-style-type: none"> Help your child get enough sleep. Try to have a bedtime routine, including tooth brushing and perhaps reading a story together. By talking about your child's body and how it works, encourage them to take some responsibility for keeping themselves safe. Help your child to recognise when they need to ask for help from others if they don't feel safe. For example, teach your child what to do in an emergency, including how to use a phone, how to safely apply sun cream and when to wear a hat, and how to behave around ponds/streams/sea. On walks to the local park or shops, be clear about how far ahead your child can go and where to stop and wait. Make it fun by linking it to counting steps, vehicles, lamp posts, gates, shop signs or looking for different coloured doors. As your child matures, give them more independence, as you feel is appropriate. Travel on different types of transport where possible and show your child what their responsibility is in each situation to keep themselves safe.
