

Keeping the Promise Award Programme

Information and Summary Guidance

This professional learning was originally developed by North Lanarkshire Council in response to The Promise. The West Partnership Promise Working Group, Education Scotland, and CELCIS have since updated the original resources to create an accessible resource for all Local Authorities.

The resources have been adapted for Community Learning and Development (CLD) and have been designed to be used in any CLD setting and to be delivered flexibly. For example as:

- Whole setting professional learning
- Personal professional learning for individuals as part of their CLPL/PRD/PDR
- Induction Training for new staff

Purpose

To support practitioners in developing their awareness and understanding of The Promise - the commitment made by the Scottish Government to improving the educational experiences and outcomes for Scotland's care experienced children and young people.

Aims

- To raise awareness and understanding of The Promise – the commitments made around education to support inclusion and improve outcomes
- To highlight the particular needs of our care experienced people including some of the challenges they face which impacts on their access and engagement in learning and opportunities
- To highlight our responsibilities under The Promise – what we need to do as “good parents” to ensure the best for our care experienced people
- To support our workforce to consider how they can contribute to positive changes both individually and collectively
- To provide formal recognition for individuals and settings who successfully complete this professional learning

Key principles

- This professional learning (PL) is for **ALL** staff and volunteers and there is an expectation that over time **ALL** staff and volunteers complete it
- This PL should be a mandatory part of induction training for new staff and volunteers
- The PL should be regularly refreshed for all staff and volunteers - at least every three years (to include refreshed data and resources)

Structure

The course consists of:

- two professional learning sessions (1-1.5 hours each)
 - National context, local data, and our responsibilities & duties
 - Understanding and Supporting Care Experienced Children and Young People
- an E-learning module for all participants to include a summative quiz.

Outcome

1. Participants receive a professional learning **I Promise Award** on completion of the course.
2. CLD settings receive a professional learning **We Promise Award** when:
 - **all staff** have participated in or viewed the two presentations: and
 - a minimum of **70% of staff** have successfully completed the e-learning module.
3. CLD settings receive a **Keeping the Promise Award** when they can demonstrate they are making a positive difference to care experienced children and young people in terms of their learning experiences or their educational outcomes. Outcomes for CLD settings could include improved attendance, engagement, or confidence of care experienced participants. Depending on a settings numbers of care experienced people the evidence could be based on the settings care experienced participants as a group or for individual people. The evidence could be data evidence or the narrative around an individual person's journey. When published National Outcomes Framework could be useful for deciding on relevant evidence for the Award within a CLD setting. For more information please contact Education Scotland at IWE@educationscotland.gov.scot. Please specify that you work in a CLD setting.
