

The 2020 People Survey ran from 1st October to 3rd November. 319,935 people, from 106 Civil Service organisations, completed the survey; giving us an overall response rate of 66%.

Here you'll find your Employee Engagement Index, Core Theme Scores, and Discrimination, Bullying and Harassment Rates. Remember to interpret any differences to 2019 with caution; the type of year we've had due to the coronavirus pandemic is not directly comparable to any other year.

Employee Engagement & Core Theme Scores

Employee Engagement

Employee engagement is a workplace approach designed to ensure that employees are committed to their organisation's goals and values, and are motivated to contribute to organisational success. We use five questions in the People Survey to measure employee engagement, and combine these responses into a summary index score to tell you where they sit on a scale of very disengaged (0%) through to very engaged (100%).

This year, your Employee Engagement Index is: **56%**

Last year, your Employee Engagement Index was: **60%**

The Civil Service Benchmark for 2020 is: **66%**

Employee Engagement Question Scores (2020)

Question	Distribution	2019 survey	SG Scottish Government (Corporate Report)	Civil Service Benchmark
B47. I am proud when I tell others I am part of my organisation	50% (Green), 31% (Grey), 19% (Red)	-13	-20	-20
B49. I feel a strong personal attachment to my organisation	43% (Green), 30% (Grey), 27% (Red)	-3	-14	-13
B48. I would recommend my organisation as a great place to work	42% (Green), 31% (Grey), 27% (Red)	-6	-26	-24
B50. My organisation inspires me to do the best in my job	39% (Green), 37% (Grey), 24% (Red)	-11	-19	-19
B51. My organisation motivates me to help it achieve its objectives	36% (Green), 39% (Grey), 25% (Red)	-10	-18	-20

Core Theme Scores

There are nine core theme scores within the Civil Service People Survey. Each theme measures a different dimension of employee experiences at work, which are known to have a strong relationship with engagement levels. Below, you'll find your overall theme score, plus the results for the individual questions underpinning each theme.

H2B. When working from home, my team is good at keeping up with informal connections	81% 10% 9%	+7 ^	+3

How we measure personal wellbeing

We measure personal wellbeing using four questions that ask people to evaluate how satisfied they are with their life, whether they feel they have meaning and purpose in their life, and their emotions during a particular period. These questions are used by the Office for National Statistics (ONS) to monitor wellbeing across the UK, as part of their Measuring National Well-being Programme. One of the main benefits of collecting information in this way, is that it is based on people's views of their own individual well-being and takes account of what matters to people by allowing them to decide what is important when they respond to questions.

Personal Wellbeing Results ?

Question	Distribution ▼	2019 survey	SG Scottish Government (Corporate Report)	All Civil Service Respondents
W02. Overall, to what extent do you feel that things you do in your life are worthwhile?		-11 ▼	+4	+5
W01. Overall, how satisfied are you with your life nowadays?		-19 ▼	+1	+1
W03. Overall, how happy did you feel yesterday?		-18 ▼	+4	+3
W04. Overall, how anxious did you feel yesterday?		-13 ▼	+2	+1

Personal wellbeing response scale

The four questions on personal wellbeing use a response scale that ranges from 0 to 10, as shown below. You'll see that the scale is reversed for question W04, where the percent 'favourable' in green is the proportion of respondents who said they have experienced low or very low levels of anxiety.

Response scale for questions W01, W02 and W03

Response scale for question W04

Mental Health & Physical Health

To help organisations and teams understand what they can do better to support those with mental and physical health problems to remain in and thrive through work, we asked two questions in the 2020 People Survey specifically on these topics (based on the World Health Organisation's Health and Work Performance Questionnaire). With many of us having to reduce our contact with others and work from home without office equipment due to the Coronavirus pandemic, we also included an ONS recommended question on experiences of loneliness, and a question on musculoskeletal disorders.

J04B. Self-reported overall mental health (2020) ?

J04B. Self-reported overall mental health (2020, all civil servants)

W07. How often feel lonely (2020) ?

W05. Self-reported overall physical health (2020)

W05. Self-reported overall physical health (2020, all civil servants)

W06. Musculoskeletal problems (MSD) in the last year

W06. Musculoskeletal problems (MSD) in the last year (all civil servants)

Factors influencing wellbeing

Stressful work environments

We use something called the Proxy Stress Index to measure conditions that can contribute to stressful environments. It is based on the following Health and Safety Executive stress management standards and People Survey insights:

- **Demands** – 'I have an acceptable workload' (B33)
- **Control over work** – 'I have a choice in deciding how I do my work' (B05)
- **Support** – 'My manager motivates me to be more effective in my job' (B08) & 'I am treated with respect by the people I work with' (B26)
- **Relationships** – 'The people in my team can be relied upon to help when things get difficult in my job' (B18) & 'During the past 12 months have you experienced bullying or harassment at work?' (E03)
- **Role in organisation** - 'I have clear work objectives' (B30)
- **Change** – 'I have the opportunity to contribute my views before decisions are made that affect me' (B45)

A score of 100% tells you that respondents gave the most negative response possible to all eight questions, suggesting they are operating in a highly stressful environment. A score of 0% tells you the opposite.

Your Proxy Stress Index (2020)

Your Proxy Stress Index (2019)

Proxy Stress Index (2020, all civil servants)

Flourishing work environments

We use the PERMA Index to measure the extent to which employees are flourishing 'at work'. It is based on the work of psychologist Martin Seligman and looks at the following five dimensions of wellbeing and happiness, and People Survey insights:

- **Positive emotion** - 'Overall, how satisfied are you with your life nowadays?' (W01)
- **Meaning** - 'Overall, to what extent do you feel the things you do in your life are worthwhile?' (W02)
- **Engagement** - 'I am interested in my work' (B01)
- **Relationships** - 'The people in my team can be relied upon to help when things get difficult in my job' (B18)
- **Accomplishment** - 'My work gives me a sense of personal accomplishment' (B03)

A score of 100% tells you that respondents gave the most positive response possible to all five questions, whereas a score of 0% tells you the opposite.

Your PERMA Index (2020)

Your PERMA Index (2019)

PERMA Index (2020, all civil servants)

Team Support

As an additional measure of flourishing workplace environments, we also asked respondents whether they feel their colleagues genuinely care about their wellbeing.

W08. The people in my team genuinely care about my wellbeing ▼ 1

W08. The people in my team genuinely care about my wellbeing (all civil servants)

Long-term illnesses and conditions

J04. Has a physical or mental health condition or illness lasting or expected to last 12 months or more ▼ 1

J04A. Condition or illness reduces ability to carry out day-to-day activities ▼ 1

J04E. Type(s) of condition or illness ▼ 1

Taking Action

Did you know?...

Research suggests that teams are more likely to be engaged if time has been taken to study and understand their results, to build staff-led action plans.

It can also have an impact on how likely they are to participate in future insight gathering - people are less likely to contribute if their views are perceived to have been ignored in the past.

Focus Areas

While the Engagement Index tells you how engaged your employees are, it does not tell you how to improve or maintain engagement. This is where key driver analysis comes in, as this pinpoints the factors that have the strongest association with your engagement levels.

The table to the right displays the five question results that have the strongest association with the engagement index for the team or group of staff you are looking at, and ranks these in order of importance.

The order of importance is determined by by something called an 'r' value, or Pearson Correlation Coefficient. If you hover over the blue dot in your key drivers table, you will see the r-value. The r-value can sit anywhere between -1 and 1. A positive r-value suggests that your engagement levels appear to increase as the % favourable score for a question increases; a negative r-value suggests the opposite.

In the table, you'll also be able to see if these are areas that have improved or worsened over the past 12 months, where trend data is available.

Belief that action has and/or will be taken

Question	Distribution	2019 survey	SG Scottish Government (Corporate Report)	Civil Service Benchmark
B52. My senior managers will act on this year's survey results	42% 24% 35%	-16 ↓	-9 ↓	-15 ↓
B53. Effective action has been taken on last year's survey results, where I work	24% 44% 32%	-12 ↓	-9 ↓	-15 ↓
