

National Improvement Hub

Raising awareness of STEM Education through engaging STEM Family Learning

Purpose:

1. To **engage** families in skill-based learning and raise their 'STEM Capital'.
2. To fully **support** young people and their parents to build and develop skills for life, learning and work, building links with local business partners.
3. To **encourage** parents to engage with their child's learning and see the value of STEM education.
4. To create a community between staff, parents and pupils and **foster positive attitudes** towards lifelong learning.

93%

of families can see the value of STEM Education

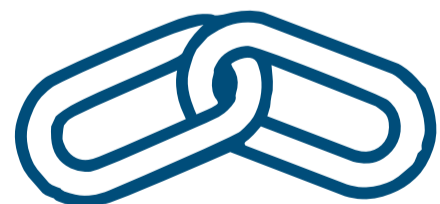

96.1%

of parents would encourage their child to follow a STEM pathway.

99%

of families said their relationships were positively strengthened

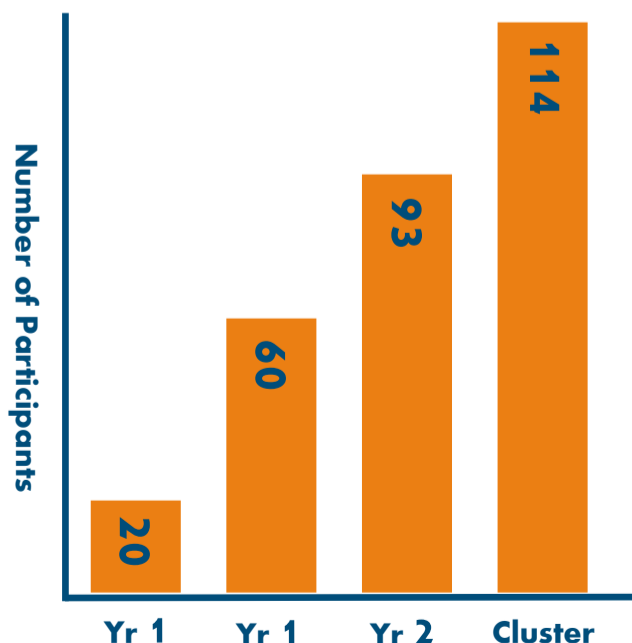

Over half

of families went on to engage with other whole school opportunities

of families would recommend the programme to others
