Scanning and Scoping Cycle

Transformational change relies upon collaboration, partnership working, and creative thinking at an individual and system-wide level.

Need to STOP doing *no longer relevant*

Scanning for the future

Exemplary "classics" and current top priorities

Learners
Parents
Practitioners
Teachers
Local Authorities
Volunteers
Employers
Partners

Solutions to the barriers

What we want to do but can't yet

Present barriers

Where are we now and what needs to be different?

Instructions

Complete the scoping and scanning cycle above by responding to the six prompts to understand the past and present in your learning environment..

Use this knowledge to consider what the top priorities are to be developed in order to be responsive to the future needs of all learners.
