

On Target?

ideal job
If you could work
in any job,
what would it be?

The things I like to do
Often the things we like to do are
also the things we are good at.
Think about how you feel and the
personal traits that make you
good at the things you like to do.

The skills I need
Looking at the big picture, what
skills, training and experience do
you need to do your ideal job?
How can you get the skills and
experience you need?

Plan B
It's good to have a back-up plan.
In case you can't do your ideal job
just yet, what other types of
employment would work for you?

The skills I have
Different jobs require different
skills, what skills do you have now
that you could use in a job?
